

Canvas by Instructure

What is it?

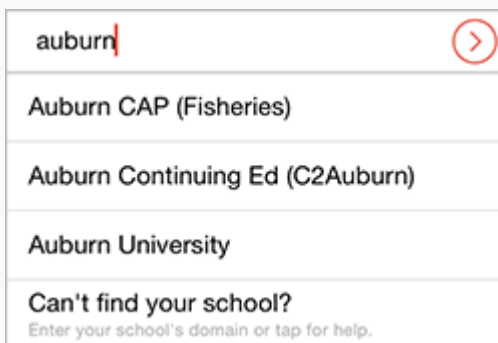

Canvas is Auburn University's official learning management system (LMS), which provides instructors and students with a web-based home for each of their courses. Course content and materials, including syllabi, lecture notes or slides, files and links to external sources, and audio-video content can be made available to students in a secure environment. Canvas also allows instructors to easily communicate with their students, deliver assignments and quizzes online, allows for online submission of student assignments, conduct online discussions, and more.

iOS Devices

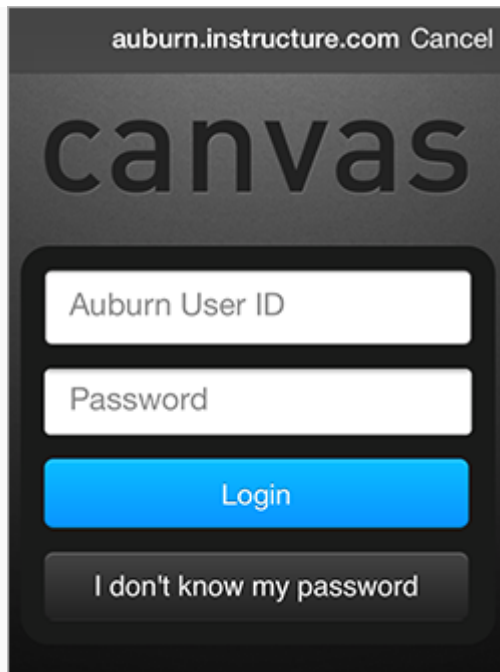

1. Download/install the "Canvas by Instructure" app from the [Apple App Store](#).

Note: requires iOS 7.0+

2. Launch the app, enter Auburn's Canvas URL (auburn.instructure.com) or search for "Auburn."

3. Log into the app with your university credentials.

Note: iOS users may receive a confirmation screen to login with your Auburn credentials.

4. That's it!

The Instructional Multimedia Group has developed some support documentation that you'll find helpful if you have any issues:
